FOREWORD

The South Carolina Higher Education Statistical Abstract is a comprehensive, single-source compilation of tables and graphs which report data frequently requested by members of the Coordinating Board, staffs of colleges and universities, the Legislature, state government officials and the general public.

Located in the Abstract are the latest statistics on enrollment, degrees awarded, faculty, tuition and fees, funding and other factual data. A Glossary of terms used is included in the back of the Abstract.

The Abstract would not have been possible without the assistance of the college and university institutional representatives for the Commission's CHE reports and the Integrated Postsecondary Education Data System (IPEDS). The help and support of these individuals are extremely important to the Commission's data collection process and related reports. Their assistance is appreciated.

INTRODUCTION

The South Carolina Commission on Higher Education was established by Act 194 of the 1967 General Assembly as the agency responsible for the coordination of higher education in the state. Act 410 of 1978 restructured the Commission and added new responsibilities. Act 629 of 1988 amended the legislation to add a number of initiatives for research and academic excellence and to modify the Commission's appointment process.

The primary concern of the Commission as a coordinating body is to achieve more effective and efficient programs and services at the state's institutions of higher learning. The functions of the Commission are determined by the General Assembly and include the following;

1. To study and submit recommendations concerning financial affairs, facilities, roles and programs of institutions, student affairs (including financial aid programs),and any other subject related to short-and long-range plans of the public colleges and universities;

2. To develop and annually review and refine the Appropriation Formula for Continuing Operations;

3. To review the annual appropriation requests of the public colleges and universities and submit recommendation on their behalf to the Budget and Control Board;

4. To review requests for permanent improvements submitted by the public colleges and universities and submit recommendations to the Budget and Control Board;

5. To develop and maintain a computerized management information system;

6. To approve new academic degree programs before they are initiated by state-supported institutions of higher education and, with the assistance of out-of-state consultants, to review and evaluate existing academic degree programs;

7. To monitor and evaluate the progress of the institutions in implementing the state program for access and equity in higher education;

8. To develop and annually review the statewide higher education plan;

9. To license non-public educational institutions to operate in or award degrees in South Carolina;

10. To administer the state's participation in various programs and activities of the Southern Regional Education Board;

11. To administer certain federal higher education programs when funded;

12. To implement the initiatives for research and academic excellence mandated by Act 629 (1988) relating to students, instruction and educational services, research and economic development. planning and assessment, and Commission effectiveness;

13. To establish and implement a reporting procedure for the Policy Council for Nurse Recruitment and Retention; and

14. To monitor the use of funds appropriated for the S.C. Center for Teacher Recruitment.
